Short Course Descriptions

CREATION AND RESTORATION OF WETLANDS
November 7-9, 2013 Naples, FL
Instructors: William J. Mitsch and Roy R. "Robin" Lewis, III

Description: This course introduces the basics of wetland creation and restoration for mitigation of lost wetlands or wildlife habitat creation, i.e., "mitigation wetlands." Course will emphasize proper landscape approaches and working with site hydrology. Case studies from Florida and several other locations in the USA will be used to
